Whether you wish to improve the cash flow of your business, or to generate additional income for yourself, our commission based partnerships are ideal.

Simply refer a client prospect, or maintain the communication links yourself, and we will do the rest.

To find out more about the program and about us, read on below.

### ***How it Works***

You simply refer a client prospect to us and we will do the rest. We will keep you informed of communications with the client and progress of engagement.

Once a client is engaged, we can provide an approximate time frame for your commission to be paid\*.

### ***Referral or 'in-house' models***

A number of existing partners prefer to run with the 'in-house' model.

## **Use us for your 'in-house' migration services.**

The in-house model is simply the right to market VISAFAQ migration services as your own *in-house* service.

A recruiting business, for example, can offer migration services to existing clients as an addition to recruiting services.

This helps to retain client relationships whilst providing an additional revenue stream.

The in-house method provides the following benefits.

- Ideal for businesses wishing to offer additional services to existing clients whilst keeping full control of the client relationship.
- Avoids difficulty of retaining qualified, experienced and competent

migration professionals with the necessary MARA registration.

- Is a scaleable service, allowing for as few or as many clients necessary over the business cycle.

This will continue and is likely to intensify in future. We strengthen applications to maximise the chance of success for our clients.

We understand the rigorous review processes DIBP use and the strict requirements for evidence and supporting arguments.

\* Commissions are paid when payment from client is received and billable work is performed. This method ensures any client fees held, for which no billable work has been performed, can be refunded to the client should the application process no longer to be pursued. Refunded amounts do not attract commission, only funds for billable work performed. Nevertheless, this rare for refunds to be made to the client, but is a legal requirement of the migration industry to ensure refunds can be made where billable work has not been performed.
